Any questions or comments can be directed to Ms. Pamela O’Neil by e-mail at pamela.oneil@ama-assn.org or by phone at 312/464-4903.

The PCPI “Quality in Action” webinar series is intended to provide members with an opportunity to hear from and interact with their colleagues who are successfully implementing PCPI and others’ measures as part of a quality improvement initiative. The local, regional, and national initiatives that will be showcased will give members insight into how the measures were implemented across various care settings using different data sources, models of care, and involving multiple stakeholders.
